Vegetable Deal Is Off To Good Start

The fall vegetable deal is fast getting under way and within the next few days a good sized volume of vegetables will be moving to northern markets. Hull Packing Company last week had green beans and sweet corn with the corn beans bringing \$2.25 per crate and the beans bringing \$2.00 and \$2.25.

Vandegrift-Williams plan to start picking beans today and they will be picking around 20 acres each day through the fall season. South Bay Growers will start their harvest of celery the middle of November. They will be picking beans around the latter part of this month.

Growing conditions have been unusually good this fall and all farmers have been putting a lot of seed and fertilizer into the ground. Without a frost or flood the area will have an unprecedented amount of vegetables to harvest between now and Christmas.

Muck City Road Is Put In The Mill

Approval of preliminary plans for construction of a new farm to market road in the Everglades was approved by the county commission this week at the request of Vice Chairman Paul Rardin.

The board placed its stamp of approval on plans for a three mile road connecting Muck City with Conners Highway. The project has long been one of the major objectives advanced by Commissioner Rardin.

The entire project extends a total of six miles, half of which will be constructed from state gas tax funds and the balance from funds to become available through a county bond issue.

Rardin estimated that the first leg of the project would cost more than \$130,000—funds which have already been earmarked by the vice chairman for this road.

The commission this week, after approving plans for the project instructed the board attorney and engineer to take what ever steps necessary to have the project ready for an early call for bids by the state road department. The commission, on motion by Rardin, certified the preliminary plans for return to the State Road Department.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

Extension of Blue Heron Blvd., to connect State Road A1A with Military Trail, was proposed this week by County Commissioner Kenneth Foster.

Foster won approval of the county commission to make an inspection trip of the road and to also confer with the Riviera Beach planning board on possible extensions of the road.

Need for the extension, Foster said, is urgent to provide a new access for carrying increased traffic in the area. He said the commission should confer with Riviera Beach officials to determine if Blue Heron Blvd., was the best suitable route or if another route should be considered.

The county commission plans to build a ground observers glass house atop the court house building in downtown West Palm Beach.

Cost of the new structure—to be built almost entirely of glass—was estimated at \$1,000.

Col. Ellis Altman, county civil defense director, said a permanent observation post was needed in order to train members of the observer corps. He said the corps is now using the roof of the West Palm Beach Elks Club but those facilities are not always available for classes.

County Engineer Steve Middleton was authorized to prepare plans for the observation post and report back to the commission.

Hello everybody! Aside from airline stewardess, 21-year-old Lori Nelson believes she has traveled more in the past four years than any other miss of her age in the United States. Since she was placed under contract by Universal-International when she was 17, Lori has traveled to the Argentine Film Festival in Buenos Aires, has entertained the troops stationed in Alaska and the Aleutians, and has made eight cross country trips, visiting every corner of the United States and stopping for interviews and other publicity business in virtually every city of any size in the nation. Quite recently Lori flew to Marine Studio, in Marineland, Florida, for important underwater scenes in one of her forthcoming films. With all this traveling, it is difficult to understand how she could have time to play important

roles in eleven movies during these four years, but that is her record to date, and it proves, if nothing else, that she has been a very busy young lady. Lori was born in Sante Fe, New Mexico, and made her entertainment debut at the age of two-and-a-half dancing in a Sante Fe stage show. She later toured New Mexico billed as "Sante Fe's Shirley Temple." See you at the movies—Mal.

From where I sit... by Joe Marsh

Tie This One For Consideration—

'Closed the office early last Saturday to go after pheasants with Pops Foster. I used fewer shells than the old gentleman and took home more birds—but not because I did better shooting.

I'd borrowed a dog for the occasion. Pops took along Blue, his ancient pointer. Several times I noticed Pops walk up to a clump of bushes Blue had pointed at and fire into the air—though he hadn't flushed a single bird.

Naturally, I wanted to know why. "Well," he said sheepishly, "I've been hunting with that dog for 11 seasons. His nose isn't much

help any more—but I'd rather waste a shell than let him know."

From where I sit, Pops always shows consideration for people, too. For instance, this is a small thing, but he puts a bottle of beer on ice for me when I visit him—though he never takes anything but coffee himself. Even if he doesn't agree with me on a matter of personal choice (which is his right) he'd rather not make a "point" of letting me know.

Child Swallows Galvanized Nail

Pam Ursry, four-year-old daughter of Mr. and Mrs. Ray Ursry, swallowed a six-penny galvanized nail while playing at the home of her grandmother, Mrs. Evie Keen, in Canal Point around 6 p. m. Saturday.

The little girl's mother, who saw her playing with some nails and took them away from her, didn't know that she had swallowed one until an X-ray picture was taken Sunday morning after she had complained of feeling bad Saturday night. From then on there was some tense moments in the Ursry household as X-ray pictures followed the movement of the nail through the intestines until it was passed without incident Tuesday morning around 8 o'clock.

County Will Let First Franchise

The county commission Monday took initial steps to let its first franchise for garbage collection in rural areas after hearing a delegation from Belvedere Homes level severe criticism of a garbage collection set up operated by the Ross Development Company.

The Ross firm put on the Belvedere Homes subdivision and since that time, according to residents, have forced home buyers to assume a number of charges other than mortgage payments—payments which include a fee for collection of garbage.

Most of the delegation attending the commission meeting were sharply critical of the Ross collection system, saying that even when payments were made, garbage and trash were left laying in the streets.

One woman told the commission the only way she could get Ross collectors to pick up her trash, was to go to the development company's office and threaten to move her trash pile in front of Ross' model home.

The commission, for several months has been studying the possibility of dividing rural areas in the county into district and accept-

ing bids for removal of trash and garbage.

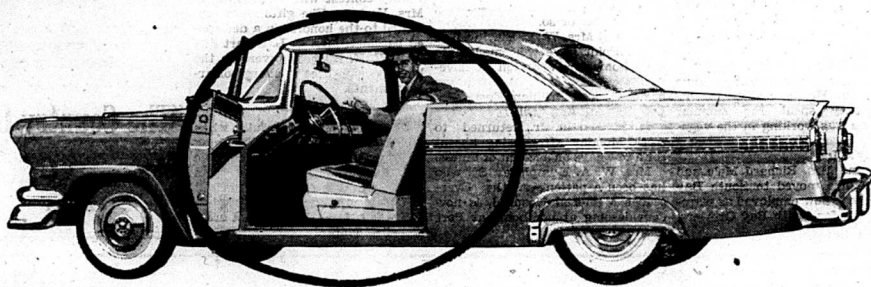

County Commissioner Lake Lytal, in whose district Belvedere Homes is located, asked the board to take immediate action on garbage removal franchises because of the large number of complaints that have been received about the Ross firm's collection system.

The board instructed its attorney and engineer to draft specifications to let franchise bids in an area which includes Belvedere Homes, West Gate and other areas adjacent to these two subdivisions.

This initial district, the board concurred, would be a test area and from this first action, will be drawn plans for granting franchise in other sections of the county.

Look For Money To Pay State Services

MIAMI—Florida's leading governmental and business figures discussed the problem of finding the money to finance state services last week and failed to come up with a sure-fire answer.

Talking at a tax panel sponsored by the Associated Industries of Florida during the group's 35th annual meeting, the speakers differed in their opinions of what taxes residents of the state will pay in the future.

Rep. C. Farris Bryant of Ocala, considered by many as a candidate for governor, warned that state revenues are not meeting appropriations. Comptroller Ray E. Green said he would make his estimate of future taxes somewhat lower than Budget Director Harry C. Smith's prediction of a necessary increase of 14.11 per cent in taxes over the current biennium.

C. J. Guntt, president of Associated Industries and an official of the John H. Swisher Cigar Co., wondered why the legislature first determines how much should be spent and then tries to meet the require-

ments. He suggested this is the reverse of what private business does.

The meeting ended with an election of officers for the coming year and a talk by Warren Whitney of Chicago.

David Asks Change Of Election Date

LARGO—Ted David Speaker of the House in the Florida Legislature, announced he will ask the State Supreme Court to rule that Governor LeRoy Collins was elected in 1954 for a four-year term.

Speaking at a Democratic rally in this Republican stronghold in Pinellas County, David said he was convinced that Collins' election had switched the governor's race away from presidential year. He said this is better to have the governor's election during the more quiet general election between presidential campaigns.

Flanked on the speaker's platform by Comptroller Ray E. Green and State School Superintendent Thos. D. Bailey, David said he would be a candidate for governor if Collins does not run.

NEW "GERM-FIGHTER"

Pretty Peggy Smith of Chicago was first person to try the newest thing in oral hygiene, an actively antiseptic toothbrush which remains germ-resistant for up to four months in use.

Three times a day for two weeks Peggy brushed her teeth with the new "Germ-Fighter," then took it to the Dr. West laboratories for tests to determine whether or not the brush had retained its anti-bacterial qualities. Chemical Engineer Kedzie Teller placed Peggy's brush on a slide with bacteria cultures. The following day she looked at the brush head on a bacteria colony counter.

There she saw scientific proof (lower photo) that the "Germ-Fighter" was effective. Around the bristles was a wide, clear, entirely germ-free area due to the action of the antibacterial agents with which the brush is impregnated. (This is shown in the actual, unretouched photo.) The new toothbrush can be seen at local stores.

Arnette Speaks To Canal Point Lions

J. Alex Arnette of West Palm Beach, clerk of the Circuit Court, was guest speaker at the dinner meeting of the Canal Point Lions Club Monday night.

Introduced by Delmar L. Hooks the speaker contrasted the Florida boom of the late 20's, in which most transactions were paper transfers of property with little or no down payment, with the present era of intense activity and prosperity which is based on a solid economic foundation because today in practically all property transaction the down payments are sufficient to give the transaction stability.

The speaker said Palm Beach County is right in the middle of the State's present boom. In the past three years the value of property transactions recorded at the County Courthouse has increased more than 400 per cent. Last year the total was approximately \$80,000,000 and this year it is estimated it will run as high as \$130,000,000, according to the speaker, who believes South Florida will grow even more in the next 30 years than it has in the past 30.

Following his talk Mr. Arnette answered questions from the floor relating to the Homestead Exemption Act. President Alton W. Jones presided.

Mrs. Erickson Is Called To Alabama

Mrs. William Erickson was called recently to Pell City, Ala., by the critical illness of her brother, Curtis Graham, who suffered a cerebral hemorrhage. They also plan to visit their father, Oscar Graham, who is a patient at the VA hospital at Augusta, Ga., before returning home.

Make your dream house come true! It's easy
—through Payroll Savings!

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving *automatically*—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Series E Savings Bonds.

Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,348.95 cash. In 9 years, 8 months, you'll have \$7,217.20!

So don't let down payments get you down. Meet your needs for ready cash the way more than 8 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

If you want your interest as current income, ask your bank about Series H Bonds, which pay interest semi-annually by Treasury check.

New Book By Mac Todd Off Press Soon

"Atomic Energy Plus," is the title of a new book, written by C. M. (Mac) Todd of Pahokee and scheduled to come from the presses of College Publishing Company in Daytona Beach within the next few weeks. The book is an interpretation of the Bible.

Charles Mack Todd was born at Conway, S. C. in 1893. He moved to Mississippi in 1902 where he lived on a farm and in 1914 he came to Florida. Proud to be a Southerner—the author has had a rich and varied life. He has been a farmer, school teacher, insurance salesman and at present is the manager of the Pahokee (Fla.) State Farmers Market.

For six years he was a chaplain in a State Prison Camp. He has been an outstanding teacher of an adult Bible Class for seventeen years and a Sunday School Superintendent for over thirty years—and was featured in the Miami Herald column, What My Religion Means to Me:

"I believe the Bible in its entirety . . . that it is the inspired word of God . . . I am a fundamentalist in both politics and religion . . . To be a modernist, to me, is but to occupy the middle step between Fundamentalism and Communism."

M. P. Stanley, the retiring president, welcomed the new incoming directors: C. A. Batchelor, Olaf Boe, Mrs. Clark Wilkinson, Jack Spencer and Louis Gold. He thanked Miss Bette Pickett, president of the Pahokee Business and Professional Woman's Club, and Mrs. Allie Okie, special guests, for their untiring efforts on behalf of the chamber during the past year. Stanley told the directors that the chamber should make every effort to encourage the families that are moving to Florida to make their home in the Pahokee area.

Retiring directors present at the meeting were Curtis Chase, Leonard Dobrow, I. M. Lair and Mrs. Jane Rieker.

Mrs. Mac Pope, chamber office secretary, was in charge of arrangements for the buffet supper.

Lee Wroten returned to Pahokee Friday after serving four years in Uncle Sam's service. He joined his wife and family. They are making their home in Pahokee where they plan to build a home soon.

'56 Chevrolet sets new Pikes Peak record in top-secret test!

Not long ago a hush-hush, camouflaged '56 Chevrolet scorched the nerve-breaking road up Colorado's Pikes Peak for a new NASCAR* certified record—the first time that old King of the Mountains has seen a new official stock car record in years! And what a road! 170 chilling turns and no guardrail! It's the first and only time a new model ever proved itself such a great road car before its introduction! The '56 Chevrolet showed the kind of performance that makes driving safer and more fun. So wait for the car that beat the King of the Mountains!
